## ENTERPRISE INTRODUCTION

The ARTDNA brand was founded in 2012 and is one of the two major brands of Zhongshan Gamder Electric Appliance Co., Ltd.

Our company is committed to the development and production of professional lighting, electrical, and intelligent products for the construction and medical fields.

We are recognized as a "high-tech enterprise" by the state and are a global innovator of intelligent and lighting technology.

We have sales and agency offices in 13 countries worldwide and hold over 120 patents in China.

## SUSTAINABILITY

Our company's goal is to create solutions for a cozy lighting environment. We have a unique wealth of experience and expertise in light and its effects on people, both physically and mentally. A strong sense of responsibility for the environment and the sustainable use of resources are also an important part of our corporate consciousness. We are committed to achieving harmony between lighting quality and energy efficiency, always considering the need to provide a comfortable light environment and optimal lighting results for human beings. Our lighting solutions are user-friendly, eco-friendly, safe, and comply with existing standards. Whether in homes, commercial spaces, healthcare and educational institutions, libraries, or museums, we support adding value to buildings, improving health and comfort, increasing productivity, and utilizing light to create truly sustainable buildings.

## ENJOY THE LIGHT LOVE YOUR EYES

We can realize light quality inspired by natural light, pioneering the integration of lighting technology and the design behind it with people and their senses, developing lighting products with less than standard glare values, and creating dynamic solutions for healthy, future-oriented living spaces.

Our "zero-glare" technology also contributes to optimal well-being and maximum concentration. It reduces glare values in an unprecedented way and mimics natural light, for which the intensity of blue wavelengths is reduced to protect eyesight.

Compared to traditional LED luminaires, this glare control and spectral distribution are much more comfortable, ensuring a good comfort experience and concentration, both for focused work and communication. In the industry, our lighting products are not only functional but also aesthetically pleasing.

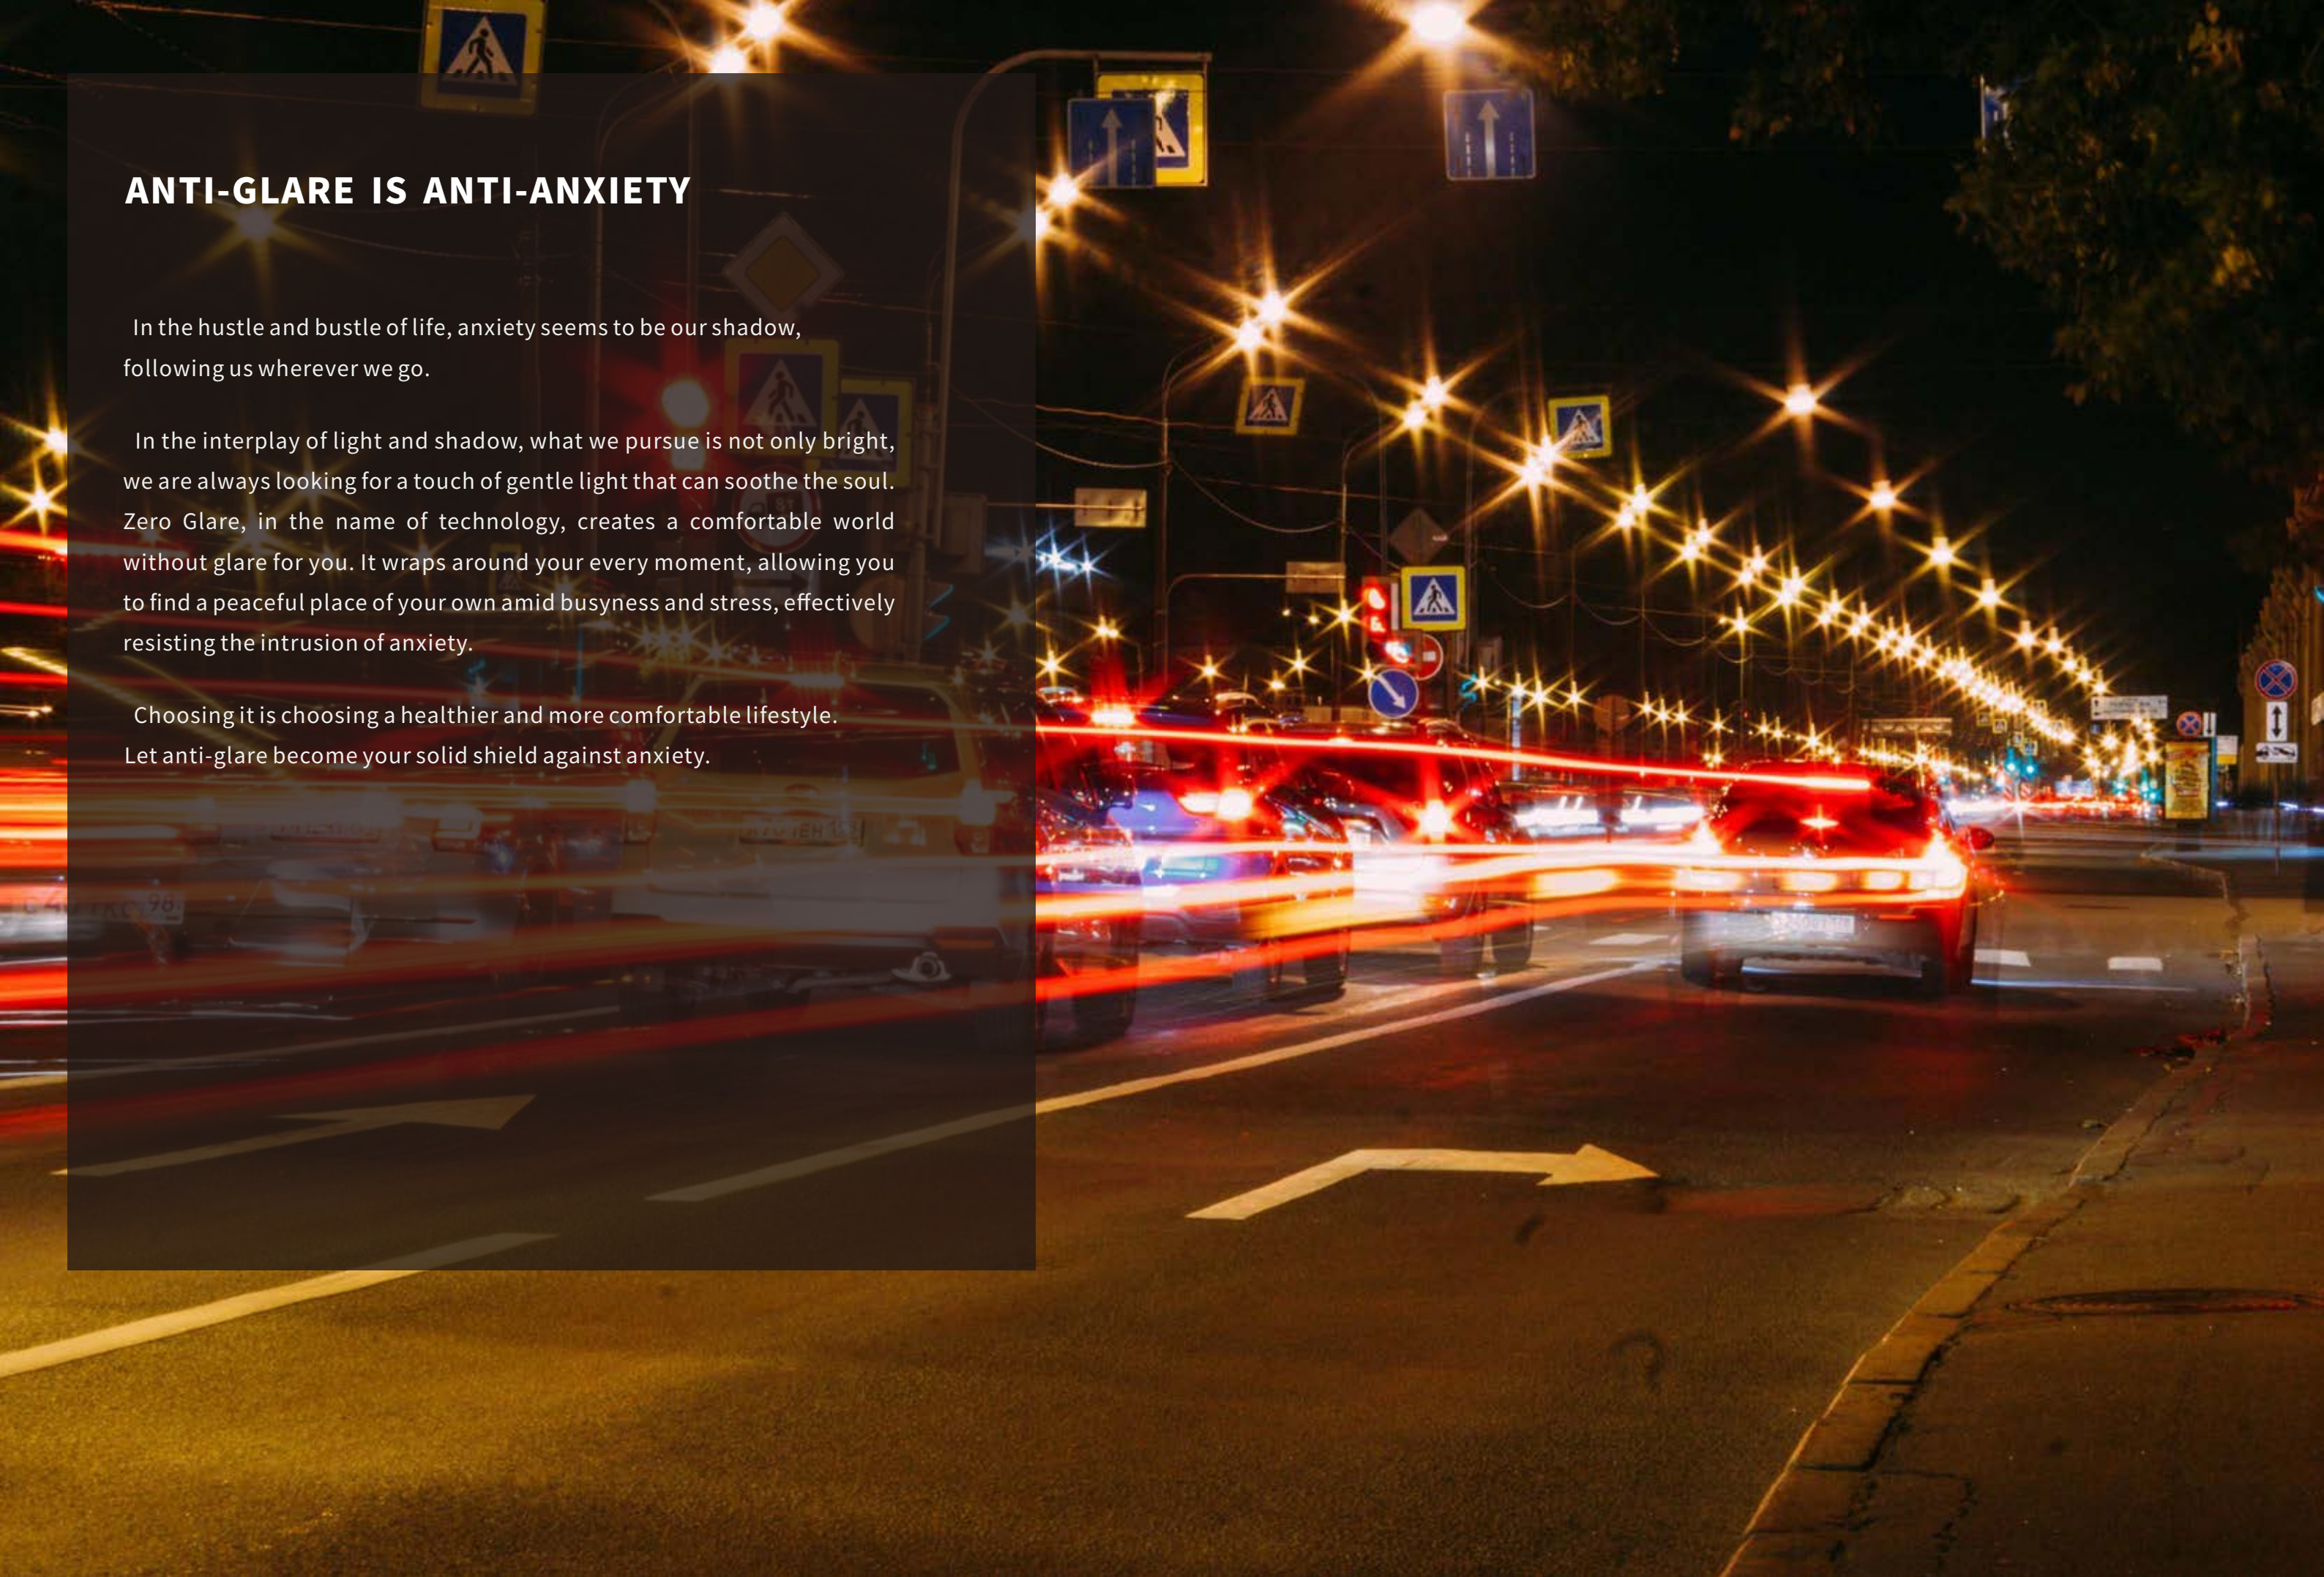

## ANTI-GLARE IS ANTI-ANXIETY

In the hustle and bustle of life, anxiety seems to be our shadow, following us wherever we go.

In the interplay of light and shadow, what we pursue is not only bright, we are always looking for a touch of gentle light that can soothe the soul. Zero Glare, in the name of technology, creates a comfortable world without glare for you. It wraps around your every moment, allowing you to find a peaceful place of your own amid busyness and stress, effectively resisting the intrusion of anxiety.

Choosing it is choosing a healthier and more comfortable lifestyle. Let anti-glare become your solid shield against anxiety.

# REFLECTED LIGHT DESIGN

$UGR \leq 0$

ARTDNA reflected light luminaire adopts Calculus Reflector Light Control Technology to accurately control the light and its distribution, with a high anti-glare index ( $UGR \leq 0$ ), basically realizing a zero-glare value.

In the application scenes, it can significantly reduce the discomfort of the human eye to the glare produced by the lamps after lighting, effectively reduce the generation of glare, make the light as smooth as silk, and gently sprinkle every corner, creating a comfortable light environment and atmosphere.

Whether for late-night reading or daily office work, you can enjoy a glare-free visual feast that keeps your eyes free from fatigue and your mind relaxed.

检测报告

报告编号: 2024010001

产品名称	LED筒灯	规格型号	10W
生产厂家	中山市家私灯饰有限公司	检测日期	2024-01-01
检测项目	照度、色温、显色指数、眩光指数	检测结果	符合GB 7000-2015要求
检测结论	合格	检测人员	张三
检测地点	广东产品质量监督检验研究院	检测日期	2024-01-01

报告编号: 2024010001

Zero Glare Spotlight Test Report

National-Level Museum Adoption Case

## LOW TEMPERATURE

ARTDNA reflected light technology can effectively reduce the surface problems of illuminated objects (fruits, artworks, etc.), such as damage to the illuminated surface and faster dehydration due to direct light from the light-emitting chip.

## LOW GLARE

ARTDNA reflected light luminaire adopts the Calculus Reflector Light Control Technology, has a high anti-glare index ( $UGR < 0$ ), and achieves zero-glare value. In application scenes, it can significantly reduce the discomfort of the human eye to the glare produced when the lamps are on, creating a cozy light environment and atmosphere.

## SHOW DETAILS

Utilize the extremely strong penetrability of light to improve the transparency of the lighting space.

## LIGHT CONTROL

ARTDNA light series, through the optimization of the light output and the optical reflector using advanced control technology, allows each ray of light to be cut and differentiated for processing, effectively controlling the direction of the light and finally overlapping and superimposing at the center of the light field, forming a very uniform light spot and focusing the output, so that the direction of light tends to be more consistent, to enhance the effective luminous flux to 93%, to control and reduce the output of glare.

## HIGH FIDELITY

We fully understand the requirement of high consistency in lighting quality, ARTDNA adopts high quality and high consistency LED chips (exceeding the ANSI graded LED standard), together with the Calculus Reflector Light Control Technology, to accurately control the light output, resulting in a pure light color, good consistency, high color rendering index, and high fidelity.

## HIGH CRI

### Full Spectrum, True Color

The color of the same food under different color rendering index, the higher the color rendering index, the more realistic the color of the food.

## Model :T1 Series Spotlight

### Parameters

■ Cutout Hole Size	φ55mm	φ75mm	φ95mm
■ Power	7W	12W	15W
■ Input	220V	220V	220V
■ Luminous Flux	320lm	550lm	670lm
■ Beam Angle	24°	24°	24°
■ Ra	Ra≥95	Ra≥95	Ra≥95
■ UGR	-1.5~4.5	-1~2.5	-3~1
■ Color	Grey	Grey	Grey
■ CCT	2700k~5700K/4000k		

### Functional Characteristics

- Deep cylinder structure, More significant anti-glare effect
- Zero-glare optics, Eye protection and anti-anxiety
- Comply with national safety standards, Safe and Secure
- Intelligent control system, Connectable to Mijia, Tuya and other customised protocols

Reflected Light Design

Intelligent Control

Precision Structure

## Model :T3 Series Spotlight

### Parameters

■ Cutout Hole Size	φ75mm	φ75mm	φ75mm
■ Power	7W	9W	12W
■ Input	220V	220V	220V
■ Luminous Flux	315lm	405lm	550lm
■ Beam Angle	24°/36°	24°/36°	24°/36°
■ Ra	Ra≥95	Ra≥95	Ra≥95
■ UGR	-1~2.5	-1~2.5	-1~2.5
■ Color	Black/White	Black/White	Black/White
■ CCT	2700k~5700k/4000k		

### Functional Characteristics

- Zero-glare optics, Eye protection and anti-anxiety
- Comply with national safety standards, Safe and Secure
- Intelligent control system, Connectable to Mijia, Tuya and other customised protocols

Reflected Light Design

Intelligent Control

Precision Optics

Model :T6 Series Spotlight

Parameters

▪ Cutout Hole Size	φ75mm
▪ Power	6W
▪ Input	220V
▪ Luminous Flux	360lm
▪ Beam Angle	24°
▪ Ra	Ra≥95
▪ UGR	3.5~7
▪ Color	Stainless Steel/White
▪ CCT	2700k~5700k/4000k

Functional Characteristics

- Ultra-thin exterior design, Free of ceiling restrictions
- Zero-glare optics, Eye protection and anti-anxiety
- Comply with national safety standards, Safe and Secure
- Intelligent control system, Connectable to Mijia, Tuya and other customised protocols

Reflected Light Design

Intelligent Control

Ultra Thin

## Model :Reflected Light Ring Chandelier

### Parameters

■ Dimensions	φ400mm	φ600mm
■ Power(Outer Ring)	30W	50W
■ Power(Backlight)	48W	60W
■ Input	220V	220V
■ Luminous Flux	1800lm	2900lm
■ Beam Angle	36°	36°
■ Ra	Ra≥95	Ra≥95
■ UGR	-0.5~4	-0.5~3
■ Color	Black/White/Grey	
■ CCT	2700k~5700k/4000k	

### Functional Characteristics

- Manual and automatic lifting options
- Zero-glare optics, Eye protection and anti-anxiety
- Comply with national safety standards, Safe and Secure
- Intelligent control system, Connectable to Mijia, Tuya and other customised protocols
- Backlighting options, More variety in appearance

Reflected Light Design

Intelligent Control

Automatic Lifting

Model :Reflected Light Ring Ceiling Light  
(Adjustable Angle)

Parameters

■ Dimensions	φ400mm	φ600mm
■ Power(Outer Ring)	30W	48W
■ Power(Backlight)	48W	60W
■ Input	220V	220V
■ Luminous Flux	1800lm	2900lm
■ Beam Angle	36°	36°
■ Ra	Ra≥95	Ra≥95
■ UGR	-0.5~4	-0.5~3
■ Color	White/Grey	White/Grey
■ CCT	2700k~5700k/4000k	

Functional Characteristics

- -30°~30°adjustable angle, Change the light area as you wish
- Zero-glare optics, Eye protection and anti-anxiety
- Comply with national safety standards, Safe and Secure
- Intelligent control system, Connectable to Mijia, Tuya and other customised protocols

Reflected Light Design

Intelligent Control

Arbitrary Angle Adjustment

Model :Reflected Light Ceiling Light  
(Composite Ring)

Parameters

■ Dimensions	$\phi 400\text{mm}$	$\phi 600\text{mm}$
■ Power(Outer Ring)	30W	50W
■ Power(Inner Ring)	30W	50W
■ Input	220V	220V
■ Luminous Flux	1800lm	2900lm
■ Beam Angle	36°	36°
■ Ra	$Ra \geq 95$	$Ra \geq 95$
■ UGR	-0.5~4	-0.5~3
■ Color	White/Grey	White/Grey
■ CCT(Outer Ring)	2700k~5700k/4000k	
■ CCT(Inner Ring)	2700k/4000k/5700k	

Functional Characteristics

- Includes spotlight and floodlight effects, Switchable between no main light and main light styles
- Zero-glare optics, Eye protection and anti-anxiety
- Comply with national safety standards, Safe and Secure
- Intelligent control system, Connectable to Mijia, Tuya and other customised protocols

Reflected Light Design

Intelligent Control

Fusion of Floodlight and Spotlight

Model :Reflected Light Ring Floor Light  
Parameters

▪ Light Head Size	φ400mm
▪ Power	30W
▪ Input	220V
▪ Luminous Flux	1800lm
▪ Beam Angle	36°
▪ Ra	Ra≥95
▪ UGR	-0.5~4
▪ Color	Black/White
▪ CCT	2700k~5700k/4000k

Functional Characteristics

- Touch screen control, Dimming easier
- Zero-glare optics, Eye protection and anti-anxiety
- Comply with national safety standards, Safe and Secure

Reflected Light Design

Arbitrary Angle Adjustment

Model :Reflected Light Ring Floor Light

Parameters

■ Light Head Size	φ400mm
■ Power	30W
■ Input	220V
■ Luminous Flux	1800lm
■ Beam Angle	36°
■ Ra	Ra≥95
■ UGR	-0.5~4
■ Color	Black
■ CCT	2700k~5700k/4000k

Functional Characteristics

- Touch screen control, Dimming easier
- Zero-glare optics, Eye protection and anti-anxiety
- Comply with national safety standards, Safe and Secure

Reflected Light Design

Arbitrary Angle Adjustment

Model :Reflected Light Linear Floor Light

### Parameters

■ Light Head Length	1330mm
■ Power(Main Light)	36W
■ Power(Backlight)	44W
■ Input	220V
■ Luminous Flux	2200lm
■ Beam Angle	36°
■ Ra	Ra≥95
■ UGR	-2.5 ~ -1
■ Color	Black/Blue-Grey
■ CCT	2700k~5700k/4000k

### Functional Characteristics

- Touch screen control, Dimming easier
- Zero-glare optics, Eye protection and anti-anxiety
- Comply with national safety standards, Safe and Secure

Reflected Light Design

Low Blue Light Design

Model :Reflected Light Linear Chandelier

Parameters

■ Dimensions	1080mm	1620mm
■ Power	36W	54W
■ Power(Backlight)	44W	70W
■ Input	24V	24V
■ Luminous Flux	1800lm	2700lm
■ Beam Angle	36°	36°
■ Ra	Ra≥95	Ra≥95
■ UGR	-2.5 ~ -1	-2.5 ~ -1
■ Color	Black/Blue-Grey	Black/Blue-Grey
■ CCT	2700k~5700k/4000k	

Functional Characteristics

- Fixed, Manual, and Automatic lifting options
- Zero-glare optics, Eye protection and anti-anxiety
- Comply with national safety standards, Safe and Secure
- Intelligent control system, Connectable to Mijia, Tuya and other customised protocols

Model :Reflected Light Ring Desk Light

Parameters

■ Dimensions	$\phi 200\text{mm}$
■ Power	18W
■ Input	220V
■ Luminous Flux	810lm
■ Beam Angle	36°
■ Ra	$\text{Ra} \geq 95$
■ UGR	-6~-4
■ Color	Black/White
■ CCT	2700k~5700k

Functional Characteristics

- AAA Eye Protection Lighting
- Zero-glare optics, Eye protection and anti-anxiety
- Comply with national safety standards, Safe and Secure
- Touch screen control, Dimming easier

Reflected Light Design

Low Blue Light Design

## Model :Reflected Light Business Linear Chandelier

### Parameters

■ Dimensions	1080mm	1620mm	2160mm
■ Power	36W	54W	72W
■ Input	24V	24V	24V
■ Luminous Flux	1800lm	2700lm	3600lm
■ Beam Angle	36°	36°	36°
■ Ra	Ra≥95	Ra≥95	Ra≥95
■ UGR	4~12	4~12	4~12
■ Color	Black	Black	Black
■ CCT	2700k~5700k/4000k		

### Functional Characteristics

- Zero-glare optics, Eye protection and anti-anxiety
- Comply with national safety standards, Safe and Secure
- Intelligent control system, Connectable to Mijia, Tuya and other customised protocols

Reflected Light Design

Intelligent Control

# How Sunlight Simulate Natural Light

## Brightness and colour temperature adjustable

The sunlight has a PWM stepless dimming and color temperature adjustment function.

Through the intelligent control system and optical design, it can be adjusted steplessly and smoothly between 2700k-6500k to adapt to the needs of different lights in different scenes.

## Rhythmic Lighting

The Sunlight's intelligent controller system can also accurately simulate natural light to suit a room's geographic location, time of day, and season through location recognition.

Supported by sophisticated algorithms, this feature can also simulate natural light from sunrise to sunset, enabling lighting transitions throughout the day.

The Human Factors Lighting feature makes lighting more compatible with healthy biological clocks and circadian rhythms, creating a healthy and people-oriented lighting experience.

## Full Spectrum High Color Rendering Index

Full-spectrum LED light source, color rendering index (Ra $\geq$ 95), restores the true colors of natural lighting.

## Functional Characteristics

■ Dimensions	φ40cm/60cm/90cm/120cm
■ Power	60W/100W/170W/220W/320W
■ CCT	2700k~6500k
■ Ra	Ra $\geq$ 95
