ARTDNA PROFILE

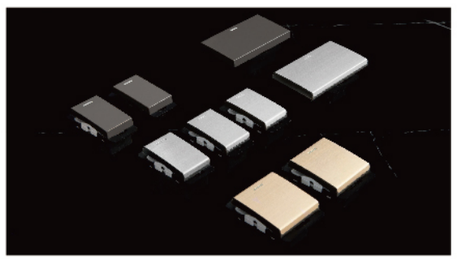

Founded in 2007, Gamder Electrical Group is a robust Chinese multinational enterprise that integrates design, R&D, manufacturing, sales and after-sales services. The company specializes in the production and distribution of a full range of smart products, switches, sockets and lighting fixtures. It strictly implements the ISO 9001 international quality management system, has been accredited as a "Guangdong High-tech Enterprise," and actively participates in the formulation of new national standards for electrical products.

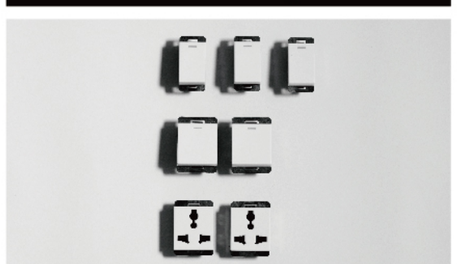

In 2012, the group grandly launched its brand — ARTDNA. Its product series combine stylish aesthetics with classic texture. Upon release, the products met with enthusiastic market response and won high-level recognition across the industry. Leveraging ARTDNA's outstanding brand strength and reputation, our products have been successfully deployed in numerous key projects. Our well-known reference projects include: the National Centre for the Performing Arts, the National Museum of China, Beijing Daxing International Airport, the ground power-supply facilities at the Jiuquan Satellite Launch Centre, the Haiyang Solid Launch Vehicle Final Assembly Park of China Long March Rockets, Tsinghua University Art Museum, Zhejiang University, China Hotel, Sheraton Hotel, etc.

Today, ARTDNA products are exported to 62 countries worldwide, serving more than 80 partners abroad. We are consistently committed to delivering efficient, comprehensive one-stop services for our customers. All our smart devices, switches, sockets, lighting products and electrical accessories undergo stringent quality inspection to ensure superior performance as well as stable and reliable quality.
